

# Computed confidence intervals for the total timing with different seeds

95.0% confidence interval for  
timings using 1000 samples

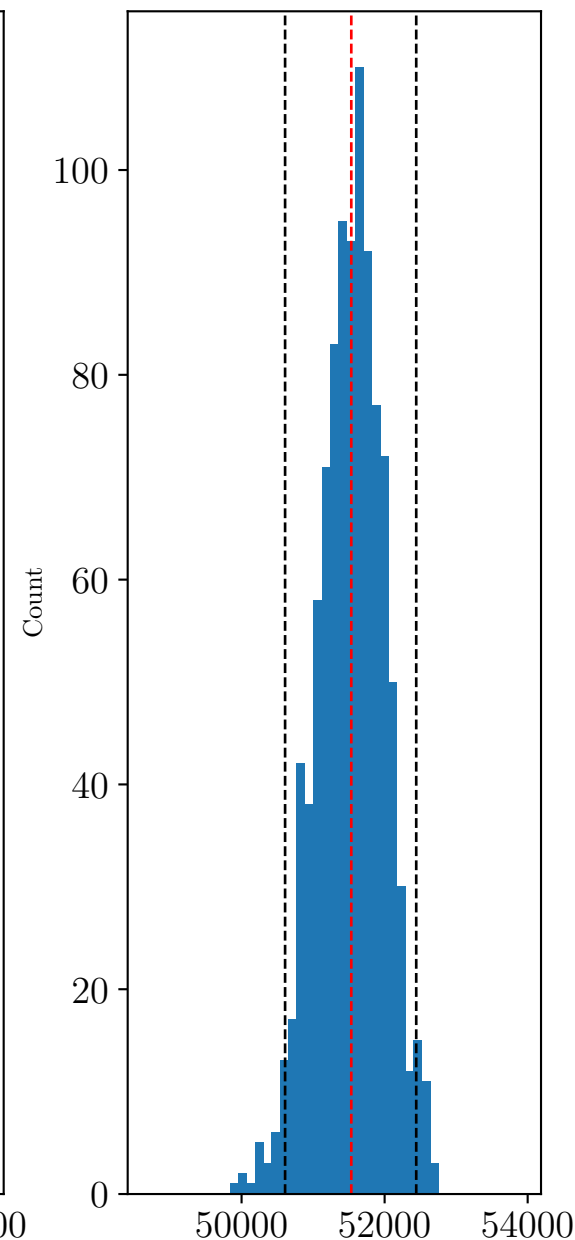

Computed bootstrap means for  
timings with seed 10.0%

95.0% confidence interval for  
timings using 1000 samples

Computed bootstrap means for  
timings with seed 20.0%

95.0% confidence interval for  
timings using 1000 samples

Computed bootstrap means for  
timings with seed 50.0%
